

Metro PCS Integrates Mavenir Converged Messaging Solution

Richardson, Texas and Barcelona, Spain – February 15, 2010 — Mavenir Systems, provider of innovative mobile convergence solutions, announced today the deployment of its Converged Messaging solution at MetroPCS. Mavenir’s IP-SMSC, part of the Converged Messaging solution, is a highly scalable and distributed product that enables new messaging services and provides MetroPCS a cost-effective platform to manage the increase in SMS data traffic.

Mavenir’s IP-SMSC introduces an IP-based layered architecture for messaging and integrates seamlessly into the current MetroPCS network via industry standard interfaces. The product offers a starting point for operators to provide revenue-generating services such as SMS Value Added Services, Converged IP Messaging (CPM), Social Networks Aggregation and delivery of SMS and MMS to LTE devices. Mavenir is helping MetroPCS transform their network from legacy messaging silos to a feature rich, open and scalable messaging core. The solution, is based on the Mavenir’s flagship mOne Convergence Platform.

“Our Converged Messaging solution enables mobile operators around the world to evolve their network and monetize new user experiences offered to their customers,” said Pardeep Kohli, CEO for Mavenir. “Mavenir’s technology provides a cost effective solution to facilitate traffic growth, ensures time to market advantage for new services, and brings a positive ROI for mobile operators.”

Mavenir will be providing a live demo of their rich messaging solutions at Mobile World Congress 2010 in Barcelona Spain at Stand 1A55.
